

I am writing to ask that the FCC reconsider its position on LPFM. The potential ramifications of this act would cause a great number of wonderful – non profit radio stations to potentially loose their broadcast. One station in particular would be K-LOVE. K-Love's radio broadcasts are spiritual and uplifting. How many other FM radio stations could proclaim the same thing? In days like these, with all the evil and unsettling events that are happening in our world, we need radio stations like K-Love to help promote values and morals. Thank you for considering this bill for denial and helping to keep good quality Christian radio alive in our country.

Sincerely,

Ann Wilson
